Re: Hearing Application  
Bol Mex A Sand, Reservoir B  
13,850' Sand, Reservoir A  
13,850' Sand, Reservoir C  
PERRY POINT FIELD  
Acadia and Lafayette Parishes, Louisiana  
Applicant: Prize Energy Corporation

Dear Mr. Commissioner:

In accordance with the Rules of Procedure for Conducting Hearings Before the Commissioner of Conservation of the State of Louisiana, application is hereby made on behalf of **Prize Energy Corporation** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the Bol Mex A Sand, Reservoir B, 13,850' Sand, Reservoir A, 13,850' Sand, Reservoir C, Perry Point Field, Acadia and Lafayette Parishes, Louisiana:

**13,850' SAND, RESERVOIR A**

1. To dissolve the existing drilling and production unit created as the 13,850' Sand, Reservoir A, by Office of Conservation Order No. 448-M, effective August 21, 1979.

**13,850' SAND, RESERVOIR C**

1. To create a single drilling and production unit of approximately 180 acres for the 13,850' Sand, Reservoir C, designated as the 13,850' RC SUA, Perry Point Field, Acadia and Lafayette Parishes, Louisiana, all as shown more particularly on the attached plat;

2. The 13,850' Sand, Reservoir C in the Perry Point Field is hereby defined as being that gas and condensate bearing sand encountered between the measured depths of 13,872 feet and 13,984 feet (electrical log measurements) in the Prize Operating Company-Floyd No. 1 Well, located in Section 21, Township 10 South, Range 2 East.

**For the above Sand and Reservoir**

1. To establish rules and regulations governing the exploration for and production of gas and condensate from the said unit;
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the unit so created, with each tract sharing in unit production on a surface acreage basis of participation;
3. To designate a unit operator and a unit well for the proposed unit;
4. To consider such other matters relating to the subject reservoir as may be appropriate and justified by the evidence presented at the public hearing.

**BOL MEX A SAND, RESERVOIR B**

1. To dissolve the existing drilling and production unit created as the Bol Mex A Sand, Reservoir C, SUA, by Office of Conservation Order No. 448-H-7, effective January 18, 2000, and to simultaneously create a revised single drilling and production unit of approximately 50 acres for the Bol Mex A Sand, Reservoir B, SUB, designated as the Bol M A RB SUB in the Perry Point Field, Acadia and Lafayette Parishes, Louisiana, all as shown more particularly on the attached plat;
2. The Bolivina Mexana A Sand, Reservoir B in the Perry Point Field was previously defined in Office of Conservation Order No. 448-H-3, effective November 23, 1982 and is hereby further defined as being that gas and condensate bearing sand encountered between the measured depths of 15,097 feet and 15,161 feet (electrical log measurements) in the Prize Operating Company-Floyd No. 1 Well, located in Section 21, Township 10 South, Range 2 East, Acadia Parish, Louisiana.
3. To confirm Prize Operating Company as the operator of the Bol M A RB SUB;
4. To find that, except to the extent contrary to the order granted by the Commissioner of Conservation in connection with the hearing held on this application, the provisions of Office of Conservation No. 448-H-3 shall remain in full force and effect, and

Hon. Philip N. Asprodites  
February 19, 2001  
Page 3-

5. To consider such other matters which may be pertinent to this application as shown by the evidence presented at the hearing held on this matter.

In compliance with the Rules of Procedure for Conducting Hearings Before the Commissioner of Conservation of the State of Louisiana, a pre-application conference was held in Lafayette, Louisiana on February 19, 2001. Attached hereto and made a part hereof is a list of the names and addresses of the parties who were in attendance at that conference. The rights of the parties were reserved.

The conference was opened by Mr. B. J. Duplantis. Mr. Frank Harrison presented the plan of applicant. Two plans, one by Mr. Robbins on behalf of the Floyd Interest and one by Mr. Placuche and Mr. Battle on behalf of the Leger Interest were shown with minor differences in the geological boundaries. The parties subsequently agreed to the geology presented by the applicant. However, the Leger Interest still intend to present a counterplan combining the proposed Bol M A RB SUB with the existing Bol M A RB SUA. There was no opposition expressed on the proposal made by the applicant as to the 13,850' Sand. It is anticipated that there may be opposition on the Bol Mex A at the public hearing on this matter.

Attached hereto and made a part hereof are plats outlining the 13,850' Sand, Reservoir C, SUA, 13,850' Sand, Reservoir A and Bol Mex A Sand, Reservoir B, SUB, Perry Point Field, Acadia and Lafayette Parishes, Louisiana, and a list of the names and addresses of the interested owners, represented parties and interested parties to whom this notice is being sent. It is hereby certified that a reasonable effort was made to ascertain the names and addresses of all interested owners, represented parties and interested parties.

Upon receipt of the legal notice in the captioned matter, the notice will be posted, published and mailed in accordance with Rule 7 of the Rules of Procedure.

Any pertinent data relating to the proposed unit can be obtained, AT THE COST OF THE REQUESTING PARTY, from Mr. Frank W. Harrison, Jr., P. O. Box 51943, Lafayette, La, 70505 (318) 232-4031.

Finally, there is enclosed herewith our check on behalf of the applicant in the amount of \$1400.00, made payable to the Office of Conservation, representing the required hearing application fee.

Very truly yours,

  
B. J. Duplantis
